St. Eustatius, 15 November 2021

Dear Mr Knops, dear Raymond,

I hereby offer you the route-timetable, by means of an adoption decree, as promised during my recent work visit to the Netherlands. I want to thank you again for your warm welcome. My letter of 30 September sets out how the establishment process has taken place and I indicated that I will observe the executive duties pursuant to the applicable Act. This efficacious instrument will allow St. Eustatius to take an important step concerning an orderly process as part of the desired and lasting administrative restructuring activities at St. Eustatius.

The discussion of the route-timetable has not led to substantive changes and the associated target dates. The Island Council upheld its arguments as set out in the letter of May 16 as offered to you during your work visit to St. Eustatius in the same week. In this respect, the Island Council submitted two resolutions on 14 October, which have been enclosed for consideration.

**ST. EUSTATIUS

A number of preconditions apply with respect to the route-timetable, about which I will inform you in the near future.

The Government Commissioner\*,

The Island Secretary,

Ms M.A.U. Francis

Ms M.A. Dijkshoorn
