

## ***Fully Vaccinated versus Non-Vaccinated***

The Public Entity St. Eustatius hereby informs residents and incoming visitors on the criteria for being considered **fully vaccinated** and the criteria for being considered **not (fully) vaccinated**.

Please keep this in mind when travelling to St. Eustatius and prior to entering the island.

### ***You are considered fully vaccinated, if you :***

- had 2 shots of the vaccine where two shots are applicable (e.g. Moderna or Pfizer); the second shot **is not older** than 9 months – or -
- had 2 shots of the vaccine where two shots are applicable (e.g. Moderna or Pfizer) **plus** the booster – or-
- had 1 shot of a vaccine where only 1 shot is applicable (e.g. the Johnson & Johnson vaccine). This shot **is not older** than 9 months.

If you are fully vaccinated, no monitoring or quarantine is required.

---

### ***Not Vaccinated or not fully vaccinated***

**You are considered not vaccinated or not fully vaccinated, if you :**

- Did not have any shots against the COVID-19 virus at all – or -
- Had only 1 shot of a vaccine where two shots are applicable (e.g Moderna or Pfizer) – or -
- Had 2 shots of a vaccine where two shots are applicable (e.g Moderna or Pfizer) but the 2<sup>nd</sup> shot was given more than 9 months ago.

*In one of these 3 cases, you will need to go into quarantine for seven (7) days. An exit test is required on the 7<sup>th</sup> day.*

***Did you have COVID-19 before? In this case, a Recovery Letter is required!***

Individuals who have contracted the virus before, will be subjected to submit **proof** in the form of a **letter of recovery** from the health care provider or their Public Health Department under which jurisdiction they were infected.

The Recovery Letter should be dated **at least 11 days after proof of infection and a negative PCR or Antigen test is required.**

**In this case,** the five (5) days monitoring protocol is applicable. An exit test is required on the 5<sup>th</sup> day.
